Welcome to the North East High School's Guidance Web Page!

We look forward to working with all NEHS students and parents for the 2008-2009 school year.

Assisting each student in realizing his/her ultimate potential is the goal of the North East High School Guidance Department. The counselors work as part of the educational team in helping each individual student assess strengths and limitations, make suitable decisions for life, develop positive attitudes, choose academic courses that are appropriate, solve personal problems, discover talents and abilities, plan for post secondary education and decide on a possible career.

… how do I contact him or her?

If you are a parent or guardian, and if you have a general counseling question or concern, the most effective way to contact your student's counselor is via phone or email. Counselors check their email and phone messages regularly and will generally respond the same day, or within 24 hours. Should you wish to meet with your child's counselor please call/email to schedule an appointment.

If you have a question about your child's grade in a course please contact the teacher directly. Email addresses and phone extensions can be located at the NEHS web site and in the back of the school district calendar. If you are a student and if you want to meet with your counselor choose from the following:

- For quick questions stop by before or after school
- For questions or concerns that may take more time to address please stop by the guidance office and request an appointment. You will be asked when you would like to meet with your counselor – choose the class wisely that you wish to be called from. You are responsible for whatever instruction or assignment you miss.
- Tutorial appointments can be made, but they should be scheduled before homeroom
- A student who needs immediate attention due to a serious concern can walk in at any time
