

North East School District Rules, Regulations, and Registration Form for Participation in Athletics

Printed Students Name _____ Male or Female (circle one)

Grade during participating year _____ Date of Birth _____

Sport: Fall _____ Winter _____ Spring _____

ATTENDANCE: Students who are absent from school are not eligible for practice or competition on that day. Arrival after 12:00pm is considered an absence for the purpose of athletics. The only exceptions are for reasons that are pre-approved by the Principal, Assistant Principal or Athletic Director (i.e. college visits, funerals, academic reasons, etc). Exceptions must be approved prior to the date of absence.

NOTE: If school is not in session, students may participate unless they are suspended (including ISS).

TARDIES: If a student is tardy but in school by 8:15, they may participate that day if they have less than five tardies in the semester. If a student has five or more tardies in a semester, a doctor's note will be required to participate that day. Students arriving after 12:00 are considered absent (not tardy) for athletic purposes and won't be permitted to participate unless it was pre-approved (see above). Ex: If a doctor's appointment causes a student to arrive after 12:00; that student should come to school before the appointment or get pre-approval. **NOTE:** A parent note does not substitute for a doctors note.

LEAVING EARLY: Students who leave school early are automatically disqualified from participating in athletics that day unless they return to school (class or work) with a doctors note or have cleared it with the Director of Athletics prior to leaving school. In the event that the appointment is late enough in the school day that the student cannot be back in school before the final bell, the student may present the doctors note to the Director of Athletics or the head coach.

GRADES: will be checked on a weekly basis by the Director of Athletics. The weekly grading period is Monday – Friday. The current grade at the time of grade checks will determine the following weeks eligibility. If a student is failing two or more classes at the end of the week, they will not be eligible for seven days, starting the following Monday after grade checks. This is the case even if they are able to raise their grade after the grade check. The only exception is an error in grade calculation.

DISCIPLINE: The use and/or possession of alcoholic beverages or non-prescribed drugs on school property, school buses, or during activities under school jurisdiction is absolutely forbidden to all students. A student guilty of breaking this rule shall be immediately dismissed from all extracurricular activities for a period of forty-five (45) school days. A second offender that same school year shall be suspended from all extracurricular activities for one calendar year.

The use and/or possession of tobacco, inhalers, vapor devices, or any other contraband outlined in this handbook, on school property, school buses, or during activities under school jurisdiction is forbidden to all students. Any student guilty of breaking this rule shall be immediately suspended from activities for five (5) school days. Second offenders shall be immediately dismissed from participating in all extra-curricular activities for forty-five (45) school days. Example: Should any member of the student body be found guilty of use and/or possession of alcoholic beverage, non-prescribed drugs or tobacco as defined in items B. and C of the handbook, he/she will be suspended from all extracurricular activities for forty-

five (45) school days. If the student planned to participate in an upcoming athletic season, he/she would be ineligible to participate until the forty-five (45) school day suspension was completed.

Students who participate in extracurricular activities are representatives of the North East School District and shall set a superior standard of behavior. Students can and will be suspended or dismissed from extracurricular activities for conduct detrimental to the activity or the school for receiving an excess of detentions for rule infractions. Students who are on any School Suspension are prohibited from participation until they attend regular classes.

Each student is to strive to be loyal to the coach or the advisor and abide by the rules and regulations of the activity and their school. The school district's rules shall be considered as minimum standards and can be exceeded when the particular charter of needs of the local program so indicate. Such rules and regulations are subject to approval by the building's principal.

Any student who feels that they have been unjustly accused/punished too severely has the right to an appeal hearing in a procedure outlined in the Due Process Procedure. In the event of an appeal, the decision of the administration will remain in effect until the appeal process has been complete.

RECRUITING: In the event that a college coach is recruiting one of our student athletes, they may ask the school for a copy of their academic transcripts from the athletic department. You have the option to allow the athletic department to share this information or deny the athletic department to release transcripts.

INSURANCE: Parents understand and acknowledge that even when conducted in an appropriate manner, athletics can be inherently dangerous and could cause serious injury to the minor child, including but not limited to, bruises, sprains, fractures, dislocations, concussions, significant head injuries, paralysis, Chronic Traumatic Encephalopathy, Amyotrophic lateral sclerosis, early onset Alzheimer's, Parkinson's Disease, dementia, acute memory loss, anxiety, depression, other serious physical injury, and death. The Parents expressly assume the risk associated with their minor student's participation in the athletic program, including the express risk in person-to-person collisions inherent to athletics. Parents agree to hold harmless indemnify and defend the North East School District from any and all claims, causes of action, or loss arising out of or related to the student's participation in athletics. Since the North East School District does not purchase Interscholastic Athletic Insurance coverage, it is necessary to assure that all athletes are properly covered in the event of an accidental athletic injury. Accordingly, before any student-athlete can engage in any team or individual practices, competitions or activities, the information requested below must be supplied to the Athletic Director. Coaches are hereby directed to not allow any participation of an athlete in any interscholastic sports activity until the information below is supplied.

Do you give the athletic department my permission to release your child's academic transcripts to a college/university if they ask as part of the recruiting process _____YES _____NO

**PIAA COMPREHENSIVE INITIAL
PRE-PARTICIPATION PHYSICAL EVALUATION**

INITIAL EVALUATION: Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the Principal, or the Principal's designee, of the student's school for retention by the school. The CIPPE may not be authorized earlier than June 1st and shall be effective, regardless of when performed during a school year, until the latter of the next May 31st or the conclusion of the spring sports season.

SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR: Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The Principal, or the Principal's designee, will then determine whether Section 8 need be completed.

SECTION 1: PERSONAL AND EMERGENCY INFORMATION

PERSONAL INFORMATION

Student's Name _____ Male/Female (circle one)

Date of Student's Birth: ____/____/____ Age of Student on Last Birthday: ____ Grade for Current School Year: ____

Current Physical Address _____

Current Home Phone # () _____ Parent/Guardian Current Cellular Phone # () _____

Parent/Guardian E-mail Address: _____

Fall Sport(s): _____ Winter Sport(s): _____ Spring Sport(s): _____

EMERGENCY INFORMATION

Parent's/Guardian's Name _____ Relationship _____

Address _____ Emergency Contact Telephone # () _____

Secondary Emergency Contact Person's Name _____ Relationship _____

Address _____ Emergency Contact Telephone # () _____

Medical Insurance Carrier _____ Policy Number _____

Address _____ Telephone # () _____

Family Physician's Name _____, MD or DO (circle one)

Address _____ Telephone # () _____

Student's Allergies _____

Student's Health Condition(s) of Which an Emergency Physician or Other Medical Personnel Should be Aware _____

Student's Prescription Medications and conditions of which they are being prescribed _____

SECTION 2: CERTIFICATION OF PARENT/GUARDIAN

The student's parent/guardian must complete all parts of this form.

A. I hereby give my consent for _____ born on _____ who turned _____ on his/her last birthday, a student of _____ School and a resident of the _____ public school district, to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests during the 20____ - 20____ school year in the sport(s) as indicated by my signature(s) following the name of the said sport(s) approved below.

Fall Sports	Signature of Parent or Guardian
Cross Country	
Field Hockey	
Football	
Golf	
Soccer	
Girls' Tennis	
Girls' Volleyball	
Water Polo	
Other	

Winter Sports	Signature of Parent or Guardian
Basketball	
Bowling	
Competitive Spirit Squad	
Girls' Gymnastics	
Rifle	
Swimming and Diving	
Track & Field (Indoor)	
Wrestling	
Other	

Spring Sports	Signature of Parent or Guardian
Baseball	
Boys' Lacrosse	
Girls' Lacrosse	
Softball	
Boys' Tennis	
Track & Field (Outdoor)	
Boys' Volleyball	
Other	

B. **Understanding of eligibility rules:** I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at www.piaa.org, include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance.

Parent's/Guardian's Signature _____ Date ____/____/____

C. **Disclosure of records needed to determine eligibility:** To enable PIAA to determine whether the herein named student is eligible to participate in interscholastic athletics involving PIAA member schools, I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data.

Parent's/Guardian's Signature _____ Date ____/____/____

D. **Permission to use name, likeness, and athletic information:** I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics.

Parent's/Guardian's Signature _____ Date ____/____/____

E. **Permission to administer emergency medical care:** I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 7 regarding a medical condition or injury to the herein named student.

Parent's/Guardian's Signature _____ Date ____/____/____

F. **Confidentiality:** The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical condition will not be shared with the public or media without written consent of the parent(s) or guardian(s).

Parent's/Guardian's Signature _____ Date ____/____/____

SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?

Concussions cannot be seen; however, in a potentially concussed student, **one or more** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- **Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents.** Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- **The student should be evaluated.** A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- **Concussed students should give themselves time to get better.** If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

- Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:
 - The right equipment for the sport, position, or activity;
 - Worn correctly and the correct size and fit; and
 - Used every time the student Practices and/or competes.
- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

Student's Signature _____ Date ____/____/____

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

Parent's/Guardian's Signature _____ Date ____/____/____

SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) occurs when the heart suddenly and unexpectedly stops beating. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 350,000 cardiac arrests that occur outside of hospitals each year. More than 10,000 individuals under the age of 25 die of SCA each year. SCA is the number one killer of student athletes and the leading cause of death on school campuses.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as

- Dizziness or lightheadedness when exercising;
- Fainting or passing out during or after exercising;
- Shortness of breath or difficulty breathing with exercise, that is not asthma related;
- Racing, skipped beats or fluttering heartbeat (palpitations)
- Fatigue (extreme or recent onset of tiredness)
- Weakness;
- Chest pains/pressure or tightness during or after exercise.

These symptoms can be unclear and confusing in athletes. Some may ignore the signs or think they are normal results off physical exhaustion. If the conditions that cause SCA are diagnosed and treated before a life-threatening event, sudden cardiac death can be prevented in many young athletes.

What are the risks of practicing or playing after experiencing these symptoms?

There are significant risks associated with continuing to practice or play after experiencing these symptoms. The symptoms might mean something is wrong and the athlete should be checked before returning to play. When the heart stops due to cardiac arrest, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience a SCA die from it; survival rates are below 10%.

Act 73 – Peyton's Law - Electrocardiogram testing for student athletes

The Act is intended to help keep student-athletes safe while practicing or playing by providing education about SCA and by requiring notification to parents that you can request, at your expense, an electrocardiogram (EKG or ECG) as part of the physical examination to help uncover hidden heart issues that can lead to SCA.

Why do heart conditions that put youth at risk go undetected?

- Up to 90 percent of underlying heart issues are missed when using only the history and physical exam;
- Most heart conditions that can lead to SCA are not detectable by listening to the heart with a stethoscope during a routine physical; and
- Often, youth don't report or recognize symptoms of a potential heart condition.

What is an electrocardiogram (EKG or ECG)?

An ECG/EKG is a quick, painless and noninvasive test that measures and records a moment in time of the heart's electrical activity. Small electrode patches are attached to the skin of your chest, arms and legs by a technician. An ECG/EKG provides information about the structure, function, rate and rhythm of the heart.

Why add an ECG/EKG to the physical examination?

Adding an ECG/EKG to the history and physical exam can suggest further testing or help identify up to two-thirds of heart conditions that can lead to SCA. An ECG/EKG can be ordered by your physician for screening for cardiovascular disease or for a variety of symptoms such as chest pain, palpitations, dizziness, fainting, or family history of heart disease.

- ECG/EKG screenings should be considered every 1-2 years because young hearts grow and change.
- ECG/EKG screenings may increase sensitivity for detection of undiagnosed cardiac disease but may not prevent SCA.
- ECG/EKG screenings with abnormal findings should be evaluated by trained physicians.
- If the ECG/EKG screening has abnormal findings, additional testing may need to be done (with associated cost and risk) before a diagnosis can be made, and may prevent the student from participating in sports for a short period of time until the testing is completed and more specific recommendations can be made.
- The ECG/EKG can have false positive findings, suggesting an abnormality that does not really exist (false positive findings occur less when ECG/EKGs are read by a medical practitioner proficient in ECG/EKG interpretation of children, adolescents and young athletes).
- ECGs/EKGs result in fewer false positives than simply using the current history and physical exam.

The American College of Cardiology/American Heart Association guidelines do not recommend an ECG or EKG in asymptomatic patients but do support local programs in which ECG or EKG can be applied with high-quality resources.

Removal from play/return to play

Any student-athlete who has signs or symptoms of SCA must be removed from play (which includes all athletic activity). The symptoms can happen before, during, or after activity.

Before returning to play, the athlete must be evaluated and cleared. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed this form and understand the symptoms and warning signs of SCA. I have also read the information about the electrocardiogram testing and how it may help to detect hidden heart issues.
